<b>TOTAL REVENUE AND OTHER SUPPORT</b>	<b>\$1,145,379</b>

# Letter from the Executive Director

Larry D. Myers

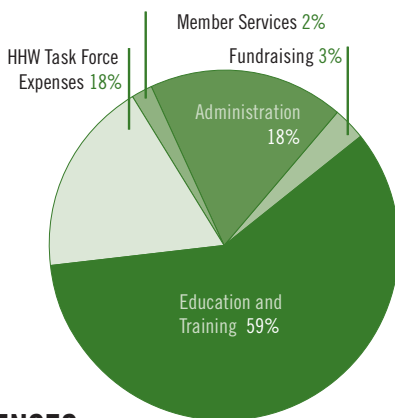

Let me begin with a special “thank you” to all of our members, supporters, volunteers, Board of Directors, and staff for all that you have done this past year to help PRC pursue its mission of conserving our natural resources. With your support, we reached over 23,000 students in 2008 with classroom programs, assemblies, service learning projects, and summer camps. Each time we make direct contact with students, it’s one more opportunity to inspire them to become our next generation of environmental stewards.

In the past four decades since the environmental movement began, we have witnessed amazing success stories to conserve our natural resources here in Pennsylvania and across our country. Protecting our natural resources, and ultimately human health, requires vision, research, leadership and substantial funding borne by all of us in the form of taxes and service fees. We understand that a healthy environment supports a healthy economy.

We are dealing with a recession that threatens the progress we’ve made to date. As I prepared this message, Pennsylvania was dealing with a \$3.2 billion dollar deficit in their budget. Programs and services are being scaled back to help us live within our means. That is both necessary and understandable...to a degree. However, what we find troubling is that too often environmental programs and services are viewed as easy targets from which to cut funding to balance the budget. In 2008, \$15 million was redirected from the Recycling Fund to balance the budget, something never intended for the Fund. Even the Education Improvement Tax Credit, a win-win program for everyone, is being threatened as a means to redirect tax dollars back to the general fund.

By the time you read this annual report, the Commonwealth’s budget should have been approved. Regardless, I ask you to take the opportunity to contact your local legislators and express to them the need to preserve funding for environmental programs. Once programs and services are interrupted, it’s hard to regain the momentum. We have too much to lose!

We have an opportunity to preserve what we’ve achieved by making our voices heard. Please visit our web site ([www.prc.org](http://www.prc.org)) for a discussion of the issues and a sample letter we sent to all legislators. On our web site is a link for identifying and contacting legislators. Natural resource conservation has to be a high priority too!

## EXPENSES

Education and Training	\$663,552
HHW Task Force Expenses	204,866
Member Services	20,225

Net Assets Released From Restrictions	(\$235,764)
Increase (Decrease) in Temporarily Unrestricted Net Assets	(\$102,219)
Increase in Net Assets	(\$84,254)
Net Assets - Beginning of Year	\$410,356
Net Assets - End of Year	\$326,102

*Annual Audit - PRC's financial records have been audited by Rachel Hoza, CPA in Greensburg, PA. Audit reports are available for examination at PRC's Ridley Creek office. PRC is a 501 (c) (3) nonprofit organization whose environmental and educational programs are funded by its members, foundations, contracts, and fee-for-services.*

# Community Outreach

## PRC AND THE CLEAN PITTSBURGH COMMISSION “REDD UP” THE CITY

*Volunteers “Redd-Up” along a difficult highway in Pittsburgh on October 18.*

Established in 2005 by PRC and City Council, The Clean Pittsburgh Commission (CPC) is a network of City departments, local non-profits, individuals and community groups working together to improve the environmental quality of life of Pittsburgh residents through litter and illegal dumping prevention, cleanup and enforcement.

In 2008 the CPC issued its first “State of the City Report” and held two major events to recognize the volunteers who worked to keep their neighborhoods clean. At the Meet and Greet Mixer in January and the Great PA Cleanup After-Party in April, over 350 volunteers received awards and mingled with City Department leaders, Council members and Mayor Luke Ravenstahl.

Through the Redd Up Weekends and Stash the Trash events in the spring and fall, 24,000 volunteers and 7,482 students collected over 180 tons of trash and recyclables, working towards CPC’s vision to make Pittsburgh one of the cleanest cities in America by 2010.

Visit PRC’s website at [www.prc.org](http://www.prc.org) to read the entire State of the City Report.

# MONSTER BILLBOARDS POSE NEW THREAT TO LANDSCAPE IN DELAWARE COUNTY

As PRC approaches its 70th birthday, one of the key issues that spurred its formation is back in the news- unsightly billboards. The latest front against preserving scenic beauty in our communities and countryside cropped up on the highways of Delaware County. Five municipalities, the Borough of Morton and the Townships of Springfield, Haverford, Marple and Newtown, are facing legal challenges to their zoning ordinances. Proposed are more than 20 large billboards ranging from 700 to 1,200 square feet in size. The billboards are equivalent in scale to those on Interstate highways, and are to be located in busy business districts.

PRC is leading the effort to educate citizens and government officials on the threat to our communities posed by outdoor advertising. Working under contract with the Delaware Valley Regional Planning Commission, PRC provides consulting services to municipalities on the issues of illegal billboard removal, stronger local ordinances to control outdoor

*Conceptual view of proposed billboard site on Sproul Road in Delaware County.*

advertising and the preservation of community character through the prevention of visual blight. Before the new proposals, convincing officials that billboard ordinances and enforcement should be a priority was a hard sell. Now, municipalities are reaching out to PRC as the word spreads that monster billboards are a threat. Fortunately, PRC, and regional partner organization, the Society Created to Reduce Urban Blight (SCRUB) of Philadelphia, have built and maintained a wealth of expertise on issues of visual blight, available both to municipalities and community organizations.

For more information on Visual Blight Issues, contact Carol Butler at 610-353-1555 ext 232 or [butler@prc.org](mailto:butler@prc.org).

## 2008 Highlights – Community Outreach

### HHW TASK FORCE RECEIVES AWARDS

Administered by PRC, the Southwestern PA Household Hazardous Waste (HHW) Task Force received a 2008 President's Volunteer Service Award and a Western PA Environmental Award for its efforts to responsibly dispose of household chemicals.

### COMMUNITY RECYCLING PROGRAM EXPANDED

PRC introduced a public drop-off at its western office for unwanted cell phones, printer and toner cartridges, alkaline batteries and compact fluorescent bulbs (CFLs).

### CRAFT SHOW SUPPORTS EDUCATION & OUTREACH PROGRAMS

PRC hosted the American Country Sampler craft show at the Environmental Living Demonstration Center for 3 weeks in October and November.

### HIGH SCHOOL SENIORS GET A LESSON IN VOLUNTEERISM

At the Strath Haven Senior Experience Program, administered by the Unity Center, students tackled landscaping tasks including weeding, raking, mulching and planting native plants while learning the importance of volunteerism. The program took place in May at PRC's Environmental Living Demonstration Center.

### PRC WORKS WITH LOCAL GOVERNMENTS TO KEEP PENNSYLVANIA BEAUTIFUL

From the South Side of Pittsburgh to the municipality of West Chester, PRC assisted volunteers with their cleanup efforts across the state. Events included the Great PA Cleanup coinciding with Earth Day, highway beautification, completing a KAB Litter Index, cigarette litter prevention, a signage inventory and graffiti removal.

# Education

## Watershed Awareness Program

Water, water, everywhere! PRC's Watershed Awareness Program is overflowing! Since its inception as an in-school program in 2003, it has expanded to include the Celebrate the Rain! Watershed Awareness/Rain Barrel Workshop for the adult community, Act 48 teacher workshops, pre-service teacher workshops and The Wonderful World of Water Day Camp – a free children's summer camp sponsored by the Pennsylvania American Water Company.

*Junior Chemists build an individual water filtration device during a Wonderful World of Water Day Camp at the Greentree Nature Center.*

PRC's Celebrate the Rain! Watershed Awareness/Rain Barrel Workshops teach participants how to conserve water, recharge groundwater supplies, manage storm water with rain gardens and reduce their contribution to non-point source pollution. The workshop demonstrates how to retrofit a 55-gallon drum into a rain barrel and participants receive all of the required hardware. A series of eight workshops are offered in the spring and fall.

In 2008 pre-service and Act 48 teacher workshops, funded by the PA Department of Environmental Protection (DEP) EE Grants Program were offered at many colleges and universities providing background information, lesson plans and hands-on activities for use in the classroom.

Children in southwestern PA enjoyed two days of outdoor education and fun celebrating water at the Green Tree Nature Center in Allegheny County and Jennings Environmental Education Center in Butler County. Through lessons, nature hikes, relay races, games and crafts children learn about water, the watershed and how to protect this precious resource.

The ever-popular Watershed Awareness In-School Program, funded by a DEP EE grant through the Allegheny County Conservation District, enjoys continued success. In 2008 over 1,500 students participated in this two-session program.

We all live in a watershed, and people of all ages, through PRC's Watershed Awareness Programs are learning how to practice watershed protection and conservation in their own backyards.

## EITC PROGRAMS EDUCATE AND INSPIRE

In 2008, over 9,000 public, parochial, and private school students in eastern and central PA from pre-kindergarten to college, benefited from PRC's Environmental Education Programs. Over 1,600 students enjoyed field trips to PRC's Environmental Living Demonstration Center in Ridley Creek State Park and the Heinz National Wildlife Refuge at Tinicum. Classes were offered on a variety of topics including Greener Lifestyles, Litter Prevention, Recycling, Watershed Awareness and Pennsylvania Songbirds, all designed to foster lifelong respect for and enjoyment of our environment. All programs were provided free of charge to the schools through the state Educational Improvement Tax Credit (EITC) program and funding from the PA Department of Environmental Protection (PADEP).

PRC thanks PADEP and our generous EITC contributors, Waste Management, Wawa, PP& L Corporation, PNC Bank and Aqua PA for making these programs possible.

*Using an EnviroScape model, students learn how watersheds become polluted.*

### 2008 Highlights — Education

#### ADULT EDUCATION CLASSES

“Roll out the Barrel” and “Build Your Own Bin” were two of the themes of PRC's 31 adult community classes presented on Backyard Composting, Vermicomposting and Watershed Awareness/Rain Barrels to over 900 participants in 2008.

#### DAY CAMPS PROVIDE FUN AND EDUCATION

PRC and the Pennsylvania American Water Company (PAWC) teamed up to offer the third annual Wonderful World of Water Day Camp. Over 60 children enjoyed outdoor fun and education in Allegheny, Butler, and Chester counties.

#### ENVIRONMENTAL HEALTH: THE HUMAN CONNECTION

In partnership with the University of Pittsburgh Cancer Institute's Center for Environmental Oncology, PRC piloted a 3-session, hands-on program in 4 Pittsburgh Public Schools.

#### “LENS ON LITTER” WINNERS ANNOUNCED

PRC's “Lens on Litter” photo contest helps to focus public attention on the problems caused by litter. Six winners in 2 categories took home prizes ranging from \$1,000 for 1st place to \$250 for 3rd place. The 2008 sponsors were AAA Mid-Atlantic, Inc., The Hershey Company and Wawa Inc.

#### IN-SCHOOL PROGRAMS FLOURISH

Reduce, Reuse, Recycle were forever engraved on the minds of over 9,000 students in southwestern PA as a result of 573 in-school presentations that covered watershed awareness, litter and recycling, composting and environmental health.

#### PRC “TEACHES” THE TEACHER

More than 500 teachers and pre-service teachers attended PRC's teacher workshops in 2008. Topics covered were air quality, watershed awareness, sustainable energy/biofuels, litter prevention and recycling. An application is pending to add an alternative energy workshop.

#### STUDENTS INVOLVED IN SCHOOL CLEANUPS

PRC and the Pittsburgh Public Schools joined together for the Stash the Trash program. A total of 7,482 students from 49 schools collected 1,157 bags of trash and 138 bags of recyclables from school grounds.

# Business & Collaborations

## PRC Offers Consulting Services for Businesses and Municipalities

Resulting from an increased awareness and interest in environmental sustainability, scores of business owners and municipal managers have been actively seeking ways to incorporate recycling, waste minimization, and green procurement strategies into their day-to-day operations. But how can they successfully implement their goals if they lack the in-house expertise or staff to work on them?

PRC has been offering one-stop-shopping for recycling and waste minimization consulting services since 1999. During that time PRC has worked with more than 400 businesses, institutions, and municipalities in the greater Pittsburgh area and beyond to help them meet their environmental goals. PRC's services range from conducting waste assessments and designing recycling systems, to training employees and providing technical assistance.

Through the Solid Waste Association of North America (SWANA) Technical Assistance Program, PRC completed projects for West Homestead Borough in Allegheny County and Indiana Borough in Indiana County. The studies chronicled the myriad of issues surrounding establishing a recycling drop-off program in each of the municipalities. PRC's comprehensive reports included not only findings and recommendations, but also useful resources to assist municipal managers make informed decisions.

*A volunteer unloads a window air conditioner at a “Hard to Recycle” collection at the Allegheny County Health Department parking lot.*

## EXELON AND PRC PARTNER TO PROVIDE GREEN ENERGY EDUCATION PROGRAM

PRC has been chosen to be the education services provider for Exelon Corporation's new state-of-the-art Renewable Energy Education Center at its Fairless Hills Generating Station in Bucks County. Since opening in October 2008, more than 500 students have visited the facility to learn about cutting-edge renewable energy technology through fun, hands-on exhibits. The programming is aimed at students in grades 4 through 8 and focuses on how energy is produced from renewable resources. The entire curriculum is interactive and aligned with the PA Department of Education's new academic standards for Environment and Ecology.

Students learn about solar, wind, hydro and landfill gas energy in creative, fun ways at several unique interactive stations in the exhibition hall. A highlight of the lesson is when students build a replica generator and try to construct alternative ways to turn the drive shaft to produce electricity. In the "game show" area, students compete against each other as either "Greens" or "Hogs" in "The Big Picture;" a game about making your home more energy efficient. In doing so, the students learn how to make their homes more energy efficient, and that some choices they make are better for the environment than others.

Teachers have enjoyed the fact that the program is very hands-on, and engaging, and students seemed to love the experimental nature of many of the activities. The project is a great fit for PRC as well, helping to fulfill one of the goals of our new 3-year Strategic Plan – to expand education and outreach programs to include alternative energy and energy conservation.

*A student uses one of the many hands-on exhibits at Exelon Corporation's Renewable Energy Education Center in Fairless Hills, PA.*

### 2008 Highlights – Business & Collaborations

#### CRANBERRY TOWNSHIP SUSTAINABLE COMMUNITIES SOLUTIONS PROJECT

In partnership with Sustainable Pittsburgh's Sustainable Communities Solutions team PRC conducted a comprehensive sustainability assessment for Cranberry Township, PA, focusing on waste and recycling solutions and environmentally preferable purchasing, (EPP) relative to Township facilities

#### RECYCLING EFFORTS SUCCESSFUL AT SPECIAL EVENTS

PRC's staff and volunteers set up recycling and compost stations and helped "green" Pittsburgh's Great Race, Vintage Grand Prix and CCI Eco Energy Days in 2008, successfully diverting over 20 tons of recyclables and 900 pounds of food waste from local landfills.

#### UPMC-PARTNERSHIP WITH A PURPOSE

PRC's collaboration with UPMC resulted in the expansion and addition of programs and services including in-school programs and Household Hazardous Waste Collections.

#### THE MALL AT ROBINSON AND WHOLE FOODS MARKETS SPONSOR COMMUNITY EVENTS

From a non-toxic products demonstration at Whole Foods Markets to a recycled crafts competition and a Hard to Recycle Collection at the Mall at Robinson, PRC helped thousands of Pittsburgh residents implement a greener lifestyle.

#### HARD TO RECYCLE

PRC and partners eLoop, LLC, the Allegheny County Health Department, and the Appliance Warehouse helped 1,100 participants to divert 369 televisions, 348 computers, 487 appliances and more than 1,000 tires from local landfills at 4 "Hard to Recycle" events in 2008.

# PRC Honors Environmental Leaders at Awards Dinner

The Pennsylvania Resources Council honored Michael DiBerardinis, Secretary of the Department of Conservation and Natural Resources, the Philadelphia Eagles and eight other organizations at their “Going for Green: Going for Eco-Friendly Choices” annual awards dinner on November 13, 2008. The event was held at the Radisson Hotel Valley Forge in King of Prussia.

Secretary DiBerardinis was only the 19th recipient of the prestigious Fox-Calhoun Award, named after two of PRC’s founders – Hilda Fox and Cynthia Calhoun, since PRC was founded in 1939. Secretary DiBerardinis was recognized for his exemplary leadership in natural resource conservation and his efforts in building policy and programs to address global warming and carbon sequestration.

The Honorary Dinner Chair for the 2008 event was Ms. Judy Spires, President of Acme Markets, and the guest speaker was Dr. Mark Alan Hughes, Director of Sustainability for the City of Philadelphia.

From L to R: Robert Fox, Managing Partner of Manko Gold; Matt Winters, Environmental Manager for Wawa; Monique Braxton, NBC10 Reporter.

# Supporters/Partners

## We thank our Supporters and Partners!

In each of our Annual Reports, we recognize the many businesses, government agencies, foundations, municipalities, nonprofit organizations, schools, colleges, universities and individuals who have contributed to the success of PRC. In 2008, support came in the form of contracts, grants, fees-for-service, personal donations, in-kind donations and partnerships as well as offering staffs and/or facilities. PRC is very grateful to those who gave their support and helped us achieve our mission and goals. We try to record and identify all of our supporters. We apologize if we inadvertently missed someone. While it is not our practice to list individual members, volunteers and supporters, please understand how much we value your contributions.
